THE Democratic party of New Mexico is a unit for the renomination of Joseph for Congress.

THE Democratic party of Arizona is a unit for the renomination of Mark Smith for Congress.

THE early bird cauches the worm. The man who is too bashful to announce himself for office on the Pacific coast shouldn't cry if he doesn't catch fish.

American silver in Canada now stands about the same as Mexican silver in America, banks refusing to take it except at a very heavy discount, and don't want it at that,

The white scale is reported to have made its appearance among the orange orchards of Sonora. A short crop is predicted for the coming season, owing the dry weather prevented.

THE Democrats, it will be seen by determined to choose delegates to wall, and will begin work on Monday. the territorial convention on the 10th | Years ago this mine was a big proof next month. The county central ducer. committee will elect.

BOTH parties will hold their territor ial conventions in the northern part of the territory this year. The significence of this move is apparent. The north gets the conventions and the south gets the candidates.

THE monetary conference will meet in October and give silver its death blow. It will then be ressurected and climb up the golden stair until it reaches the one hundred and twenty

THE county advertising is now being done up in pamphlet form because it is cheaper than to run it in a newspaper. The idea is a wise one, and reflects great credit upon the board of supervisors, which is always on the alert to save money to the taxpayers.

Ir seems to be solving quite the craze for farmers to hold up express trains. The bungling job made by four of them yesterday near Wichita, Kansas, ought to convince the balance of the members of that calling, that honesty is the best policy.

Cochisk county must send good timber to the legislature. She must also elect progressive men to county offices. Men who are continually fighting railroads and newspapers an other evidences of civilization, must get behind the procession. The days of bull teaming are over.

CANADA objects to the retaliatory measures adopted by our government against her, and justly so. It will have the effect of increasing our trade with that country, the same as the retaliatory measures with Mexico atfected our trade with that republic, and all of us who have lived in Tombstone during the past two years know how that is.

THE New York Sun of August 14th, contains a 3-column article, by Amos J. Cummings, of New York, on Mark Smith. It gives his history, from the time of his birth, and his experiences up to the time of his first election to congress. Cummings is a congressman from New York, and from personal observation, does not hesitate to accord to Mr. Smith this compliment "having established a reputation for sense, men yield to him the floor willingly, knowing that he will throw light up on the subject in dispute."

THE action of the Republican leaders in changing the method of selecting the delegates to the territorial of their ridicule is this one: convention, as will be seen has been done, by announcement elsewhere, was a wise one. The short time allowed the outlying precincts in which to hold primaries, was unfair to them, and also to aspiring candidates whose fences were down. The anti-snappers have had better luck in Cochise county than the faction with the same name had in the Democratic ranks in New York,

> The PROSPECTOR office is in receipt of a full line of campaign stationery, and is prepared to do all work in that line with neatness and dispatch, from now up to election day.

G. Armeny came in Sunday and went to his Turquois mines in Turquois district. He returned today and left on the outgoing stage. Prospecting still continues on his properties.

The Mining and Scientific Press says that the Contention Mining Co. of Tombstone district, has declared a dividend of 20 cents per share, aggregating \$50,000. This is probably the reserve fund that is being divided up among the stockholders.

W. ri. Mills is authority for the statement that there were shipped east over the Southern Pacific lines last year, an equivalent of 239,858 tons of green fruit in the shape of green, dejed and canned fruit

A lady writes from Washington to W. F. Bradley to find out whether W. E, Kelle , who came to Tombstone in 1879, left any property, Kellog will remembered as a lame man who played a fiddle, and kept a joint near 3d street on Allen. He died in '81, and owned a house which sold for \$325 by the public administrator.

Tom Sandys, who left Tombstone three years ago, returned on Sunday He has spent most of the time in Ching at the mines of which Professor Church was formerly manager. He brought back with him a brick taken from the Chinese wall, and can sit down and interest a crowd for hours with his tales of life in that, literally speaking, God forsaken country. Chinese miners get 15 cents d day. The mines are being worked at present under Chinese management.

THE Republican papers are poking fun at the recent call of Organizer Hoff, asking Democrats to organize. The principal clause that is the butt

The Republican party is upon our heels. They are better organized in this territory this campaign than they ever have been.

We fail to see anything funny about that. Take for granted that they are on our heels, is there anyone so foolish as to imagine that we are going to get out of the road? We should smile not. We'll let 'om run over us firet before we'll budge an inch.

Kibbey's Examination.

A special to the Phenix Herald yesterday from Florence say -:

The examination of Frank Kibbey commenced at ten this morning, be- DAILY I fore Justice of the Peace Stillman. District Attorney Jackson and Judge Barnes, appear for the prosecution and Baker & Campbell, and Isreal for defendants.

Dr. Barry, the attending physician testified to the cause of death. He today from a few weeks' sojourn in also saw several shots fired. Other eye witnesses of the homicide were examined until noon who testified sub stantially to the facts as already pubof the base ball game at Bisbee was 2 lished, and that Kibbey tried to borrow a six shooter five hours before.

After recess, W. E. Guild testified that he had loaned a pistol in the drawer of his office desk in the morning of the day of the shooting, and on seeing the pistol Kibbey had used he found his pistol gone from the drawer Kibbey afterwards told him that he had taken the pistol and would pay
